

Solution Architecture

Date	19 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Solution Architecture Diagram:

Providing a high-level visual representation of your solution's architecture. Presentation Layer, Application Layer, and Data Layer. specific technologies and components of my Credit card approval prediction project

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	User interface for entering applicant details and displaying prediction results.	HTML, CSS, Flask
API Gateway	Receives requests from the web interface and forwards them to the prediction service.	Flask
Core Logic	Performs preprocessing, feature engineering, loads trained model, and predicts approval.	Python, Scikit-learn, Pandas, NumPy
Database	Stores application records and trained model files used for prediction.	SQLite
